

## Email Draft to Hon. Judge Bonjuris

**Subject:** Brief Summary of 2022 Obnoxiousness Case Disposition Analysis – 61st District

Hon. Judge Bonjuris,

As requested, I conducted a review of 2022 felony and misdemeanor cases involving "obnoxiousness" charges in the 61st District (Adams, Fillmore, Quincy). Below is a brief summary of the findings:

- **Adams and Fillmore Counties** both had significantly longer average disposition times compared to other counties. Notably, April and May were peak months with average delays of over 450 and 350 days, respectively.
- The delays appear to correlate strongly with high motion activity, particularly continuance motions.
- **Quincy County** had no qualifying cases during the period of review.
- Compared to neighboring counties, the 61st District appears to face unique challenges contributing to prolonged case timelines.

A detailed report, supporting visualizations, and a comparative dashboard have been provided herewith to assist the Court in reviewing these findings

Respectfully,

Mallikarjun Gudumagatte Nagaraja
